**UAN: 0483-0000-23-019-H01-P**

**UAN: 0483-0000-23-019-H01-T**

## Atypical Audience? Let's Talk Novelty Facts About DOACs!

**Meleah K. Collins, PharmD**

PGY1 Pharmacy Resident  
Wellstar Cobb Hospital

**Target Audience:** This activity is intended for pharmacists and pharmacy technicians

**Start date:** 7/5/2023      **Expiration date:** 7/5/2024      **Location:** Web-based

**Learning Objectives:** At the conclusion of this activity, participants will be able to:

### Pharmacists:

- Describe the current indications and standards of care for the use of direct oral anticoagulants (DOACs) according to guideline recommendations.
- Analyze and evaluate current literature supporting the use of DOACs in special patient populations, including extremes of weight, patients with active malignancy, and patients with a history of atrial fibrillation undergoing PCI.
- Develop an appropriate DOAC selection, dosing, and monitoring plan for patients of special populations.

### Technicians:

- Describe the current indications for the use of DOACs.
- Identify special patient populations that do not have clearly defined standards of care for the use of DOACs.
