UAN: 0483-0000-23-018-H01-P

Management of Neonatal Seizures

Maya Watford, PharmD

PGY1 Pharmacy Resident
Wellstar Cobb Hospital

Target Audience: This activity is intended for pharmacists

Start date: 7/4/2023

Expiration date: 7/4/2024

Location: Web-based

Learning Objectives: At the conclusion of this activity, participants will be able to:

Pharmacists:

1. Describe and evaluate the pathophysiology of neonatal seizures
2. Outline and apply the current therapeutic agents for the management of neonatal seizures
3. Review and analyze the literature surrounding new treatment recommendations of neonatal seizures
4. Conclude and assess pharmacist considerations concerning neonatal seizure patients

Visit <https://wellstar.learningexpressce.com/> to login or sign-up

Participants who view the entire activity, complete and pass the post-test (>70%) and complete the activity evaluation will receive CE credit. Credit will be uploaded electronically and be available in CPE Monitor after completion of required elements.
